Map of Meaning® Certification Pathway!

October 2025 - February 2026

People who work with the Map are professional, qualified and thoughtful.

This programme builds on those qualities to assist each person to develop their own practice with the Map, in their particular professional setting.

We are delighted to offer it to those who want to become certified, and/or those who want a structured learning group for developing their own practice with the Map.

This five month guided process will enable you to:

- clarify the way you want to use the Map
- practice using the Map in a range of ways: on yourself, with another and in relevant organisational, or at scale contexts
- have the support and inspiration of a small group of other self-directed learners as well as the founders of MOMI as facilitators: Lani and Marjo
- have clear deliverables and a practical workbook to guide you
- choose optional coaching from Certified Practitioners with experience of the areas of application you are focused on
- have accountability structures to support you to build your certification portfolio
- prepare for the final certification interview and presentation
- build confidence and experience using the Map of Meaning® in your work or business so as to maximise your investment in the CP training.

Facilitators: Marjo and Lani

Time commitment over 18 weeks

- 10h whole group Live Zoom meetings (Five x two hour sessions)
- Min of 7.5h small group meetings. We recommend 5 x 1h30 sessions but each small group can choose to meet more often if needed
- Between 2-4h a week practice time
- 6-10h creating portfolio and preparing for certification interview.

Note: This program will prepare you well for the certification Interview but does not guarantee certification. If we feel that a practitioner is not yet ready for certification, we will provide clear feedback and guidance regarding how gaps can be bridged.

Investment:

US\$850 including the 10h facilitated group sessions, and certification interview.
